

## Australia swimmers make history at the Commonwealth Games

Australia continues to make history in the pool at the Commonwealth Games on the Gold Coast.

After five days of competition, Australia has currently won 60 medals - 20 gold, 20 silver and 20 bronze - which already is three more than Glasgow Games, and one more gold than Glasgow, and still a day to go!

Last night Australia took home two consecutive trifectas in the women's 800m freestyle, followed by the mens 200m backstroke and more medals!

This follows day four where again Australia took home two trifectas in the women's 50m butterfly and the men's 50m backstroke – a historic few days of Australian swimming at its finest.

Congratulations to all of our swimmers, and, our very best wishes for all your swims tonight!
